Brook+Associates knows Vancouver. And we also know surrounding municipalities, Vancouver Island and the Okanagan. We help our clients navigate complex real estate approvals processes, provide strategic advice and manage public consultation programs for major land use projects across the province.

Over the years, our firm has expanded and evolved to represent a wide-range of projects including industrial, commercial, residential, institutional and mixed-use.

Today, we would especially like to thank those companies and individuals that have put their trust in us.

Our team looks forward to the next 21 years of doing business in Vancouver and beyond...
